LEARNING ENVIRONMENT AT MODERNAGE

The classrooms at Modernage are designed to facilitate diverse learning styles, with areas that encourage children to explore and learn through play. Our environment is stimulating and purposeful, with thought-provoking displays. An integral part of the learning environment in a classroom are the relationships and the routines that the teacher establishes while working with the children. We believe that the Montessori triangle of the child, environment and teachers should extend beyond the school and include parents and the wider community so as to facilitate learning in and beyond the classroom.
