Summer Homework

Dear Parents,

The moment children finish their First Term Exams, the most exciting and much awaited time of the school year i.e., the summer vacation starts the very next day.

Summer Vacation are greeted with joy by kids and are of course a time to reinvigorate and revive. However, a balance between recreation and work must be found to ensure a break that is productive as well as relaxing. As the school closes for the summer break, we have planned some activities / projects for your children to enhance their learning skills in a fun filled way. We have tried to make the work enjoyable keeping in mind the interest of the children, so that they are engaged positively and their energies are well-directed. Mentioned below tips will not only help your child stay organized but will also make your vacation fun-filled and interesting.

Tips for Parents

There are many ways to support your child's learning by providing opportunities for reading, writing, speaking and listening while on vacation. Family discussions, word games, trips to a local bookstore or library to choose books, visiting museums and other interesting places are all fun ways to involve your child in literacy activities over the summer. As a parent, you must also promote physical activity, improve coordination, and teach good sportsmanship.

HOLIDAYS HOMEWORK FOLDER: Attempt all the activities/projects given in the Summer Vacation Task. Help your child make an attractive, handmade folder with old newspapers or charts. Decorate it and compile all the holiday homework in it. Looking forward to your cooperation.
